THE LATEST VICTORY OF MEDICAL SCIENCE.

the Organs of Respiration, and an absolute SPECIFIC FOR CONSUMPTION! THIS all-powerful vegetable prepara-tion expels from the lungs and air pas-sages, the mucus and muco-pus produced by pulmonary inflammation, heals the irritated membranes, and ronovates every organ which utilizes the breath of Life. It contains no stupefying poison, and is in all respects a healthful medi-cine. The rapidity and certainty with which it

cies of Acute or Chronic Disease of

ANNIHILATES A COUGH is astonishing. Its effects go deeper than
the mere symptoms of pulmonary discase and discharges the cause from the
system. Free and painless expectoration is the mode by which it relieves the
lungs, chest and throat from the burdens
which oppress them; thus arresting Consumption and Bronchitis in the germ before they reach the more dangerous
stages. The emaciated sufferer

with the most terrible scourge of our elf-mate will find Fritsch's Prussian Cough Syrup a potent ally, and will assuredly win the fight by adhering strictly to this great medicine. The CASES NOW ON RECORD in which it has been administered with entire success as a remedy for every va-riety of malady which affects the Re-spiratory Functions, amount to more than

FIVE THOUSAND at the present date, and yet the preparation is only in the infancy of its usefulness. The great defect of all Cough
Remedies hitherto introduced is that
they are simply expulsory. Hence they
are useless; for unless the causes of the
acrid secretions which are coughed up
are removed, and the ruptured, inflamed
or maturated surfaces healed and restored to their natural tone, a cure is
impossible. Fritsch's Prussian Cough
Syrup accomplishes these objects. The
mucus and muco-pus which are the consequence of Lung Disease, are thrown off
by it, while at the same time it soothes
and invigorates the weakened tissues.

"THEE FOR THE HINGO."

"LIFE FOR THE LUNGS." For coughs, colds, influenza, bronchial difficulties, tightness of the chest, hoarseness, sore throat, trachitis, inflammation of the lungs, difficulty of breathing, pleurisy and all disorders of a pulmonary nature, it has never been equaled.
